About Me

I am a frontend developer with 5+ years of experience building and optimizing web applications, and SaaS platforms. I skilled in Html, CSS, TailwindCSS, React, JavaScript, modern UI design, and improving UX and conversion through responsive designs. I am comfortable working with legacy codebases and progressively improving and modernizing them without unnecessary rewrites or added dependencies or breaking of normal processes and core functionalities. I am also skilled at async collaboration in remote teams.

Skills

Frontend: React (incl. class components & Redux), Redux-Form, React 16 compatibility, Next.js, JavaScript, TypeScript, Tailwind CSS, HTML, CSS

Backend: Python (Fastapi), PHP, Firebase, MySQL, Redis

Testing: React Testing Library (exposure), basic Playwright workflow

Other: Git, Google Cloud, APIs, SaaS Architecture

Experience

Freelance Web Developer | Remote

- Delivered countless projects for international and local clients including dashboards, micro-tools, and landing pages.
- Improved client workflow efficiency by up to 30% through automation and custom web tools.
- Tech stack: HTML, CSS, JavaScript, PHP, MySQL, React, Firebase.
- Managed full project lifecycle: setup, development, deployment, and delivery.

Lead Frontend Developer — Vovrexo

- Built and maintained a production frontend with React + Tailwind + i18n and localization
- Designed UI flows and dashboards for optimizing user experience
- Improved UI responsiveness and performance across devices
- Built landing pages optimized for clarity, conversion, and UX
- Reduced frontend dependencies where possible for maintainability
- Collaborated with backend service integrations and API interfaces
